So I found a fix on league forums!close your client Navigate to this folder : 'League of LegendsConfig'Find the file: 'LeagueClientSettings.. We show you where you need to improve compared to the next Ranked Tier, your opponents, or any LoL summoner you like.

1. [league client](#)
2. [league client not opening](#)
3. [league client status](#)

ArchivedMercurial windows The main problem is that League doesn't allow you to switch to a language that there is not.. New League Client DownloadPosted by2 years agoWhat is LeagueSpy? LeagueSpy was designed to help you improve your game by analyzing your League of Legends match history.. CaptainFlowers joins Travis to talk League Worlds before Nadeshot arrives with Markz to duke it out over 100t's criticisms and critiques on Hotline League Welcome to Reddit, the front page of the internet.. yaml' (backup up the file if your paranoid)Open the file using a text editor like notepad (right click open with)look for the line: locale: 'en\_US' (mine has 'en\_US but yours may have another language replace with desired language')

—————here  
are the language codes:TEnglish, en\_USPortuguês, pt\_BRTrürkçe, tr\_TREnglish, en\_GBDeutsch, de\_DEEspañol, es\_ESFrançais, fr\_FRItaliano, it\_ITČeština, cs\_CZEλληνικά, el\_GRMagyar, hu\_HUPolski, pl\_PLRomână, ro\_ROРусский, ru\_RUEspañol, es\_MXEnglish, en\_AU🇺🇸🇺🇸, ja\_JP

—————Save the file and close it (if u want to prevent patches from resetting the file you can edit the file to 'read only' in properties)Launch league client voila.
